About imagiNorthern

imagiNorthern is a northern-led network connecting artists, makers, cultural workers, organizations, and communities across Northern Manitoba and Saskatchewan.

By the North. In the North. For the North.

We believe strong northern communities are built through local leadership, creativity, collaboration, and community action.

The Role

Regional Champions help strengthen arts, culture, creativity, and community development across the North. Champions are local connectors who build relationships, identify opportunities, support community initiatives, and help ensure northern voices help shape the future of imagiNorthern.

Working with guidance from the imagiNorthern Founding Board, Champions will support local engagement, encourage collaboration, help grow the imagiNorthern membership base, and collect community stories and activity updates through the Creative Pulse reporting system.
